

Umbrella Hub Arrangements

Umbrella hub arrangements are designed to connect community-based organizations (CBOs) with health care payment systems to achieve sustainable reimbursement.

Benefits of Umbrella Hub Arrangements

- Share CDC Diabetes Prevention Recognition Program (DPRP) status
- Operate as one Medicare Diabetes Prevention Program (MDPP) supplier
- Streamline administrative, billing, and reimbursement services
- Scale the National Diabetes Prevention Program (National DPP) lifestyle change program and pursue sustainability

Participants and Partners

- **Hub organizations** are the sponsoring organization with the reach and resources to provide administrative services and coordinate stakeholders.
- **Subsidiary organizations** are the CBOs delivering the National DPP lifestyle change program in their communities.
- **Billing and claims platforms** aggregate data, submit claims, and facilitate reimbursements.
- **Stakeholders** may include state health departments, payers, and foundations.

Reasons to Become an Umbrella Hub Organization:

- Serve as a critical partner to support CBOs in your region
- Elevate your organization's profile and involvement in the effort to prevent type 2 diabetes
- Advance health equity by increasing access to the National DPP lifestyle change program
- Improve population health

Reasons for Subsidiary Organizations to Participate:

- Join other mission-aligned organizations
- Focus on delivering the National DPP lifestyle change program
- Receive reporting, claims, and administrative support
- Pursue sustainable reimbursement
- Achieve benefits of scale
- Contribute to collective impact
